Voices from the Prostate Underground offers excellent insight into the experiences of men and their families who have dealt with and survived prostate cancer. Their testimonies provide a great encouragement for those facing treatment. J. Lynn Martell, Director of Special Services, Radiation Medicine, Loma Linda University Medical Center Men don t talk about Prostate Cancer, so who is a guy supposed to talk to about treatment options and other guy issues when he is diagnosed with prostate cancer? Talk to a urologist, and they generally recommend surgery. Talk to a radiation oncologist, and radiation is the best approach. Others health care providers prescribe hormones, watchful waiting, laparoscopic surgery, cryosurgery, brachytherapy, and more. What doctors recommend is based on their own experiences, training, and professional bias. The whole story is not generally available from any one specialist and what you hear from your doctor generally results in more questions than answers. Voices from the Prostate Underground includes the stories of men and their families, who have survived prostate cancer through a variety of treatments. The stories are told in their own, unique voices as each man answers the five questions that newly diagnosed men most often ask those who have survived the disease: How were you diagnosed? What did you decide to do? What treatment did you decide on? How did things work out? How did the experience affect your life? All funds raised from the sale of this book will be donated to UsToo and the Slater Research Chair at the Loma Linda University Medical Center to support cancer research and treatment.
