THE SCIENCE OF SACRED SCRIPTURE: VOLUME 2 OF THE BLUE PRINTS FOR LIFE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Our ancient stories remain the register of the earliest scientific observation and a kind of prehistoric sociology. These are the primal conclusions of experiment which made our very consciousness possible. The first people were probably more in tuned to the forces around them, less distracted and completely engrossed in observing their new world. They had to explain what they observed in ways that would remain comprehensible for generations to come. Their observations and experiences are coded in metaphors that science can now expound on. We can now read the bible as scientists and historians; with the understanding that the author, like a computer programmer laid out more in the records than clues to avoid viruses. Genesis 1 is the formula which relates to every living thing. It has been termed the Blue Print for Life because everything in the universe shares the same formulated beginning. In the beginning of the earth, a human or a cat we find one pattern which begins in a seeded state; and then an explosion transforms elements of the seed into various parts of the final structure. This is why everything was created from the beginning. The variations pre-existed in the seed, so that what we have defined as evolution is simply differentiation. The days of the formula relate to the stages for each type of being. In humans, 6 days represents just one stage of our development. It is the completion of the cellular stage where the differentiating roles have been assigned. Thus in 6 days we would not expect to find a baby, but the beginning of a person and microscopic model of who he will be. From...
