

International Handbook on Chemical Weapons Proliferation (Hardback)

Filesize: 6.09 MB

Reviews

A fresh e book with a new viewpoint. It is among the most awesome ebook we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Prof. Christelle Stark III)

INTERNATIONAL HANDBOOK ON CHEMICAL WEAPONS PROLIFERATION (HARDBACK)

ABC-CLIO, United States, 1991. Hardback. Book Condition: New. New.. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This copiously documented examination of the problem of the spread of chemical warfare capabilities includes a military analysis of chemical use in the Iran-Iraq War, a survey of 39 countries suspected of having or seeking chemical warfare capabilities, and an analysis of the relevant political factors. With the concern over possible chemical warfare by Iraq in the Persian Gulf War, this handbook is especially timely. Also reviewed in other sections are chemical warfare agent production technology and the conversion of civilian production, long-range missile use, and various efforts to stem chemical warfare proliferation. The spread of the poor man's nuclear weapon, as chemical weapons are termed, is given its first detailed examination in this unique handbook. Gordon M. Burck and Charles C. Flowerree systematically sift through the literature on each of 39 countries outside Europe and North America suspected of having or seeking chemical warfare capabilities. In each instance, conclusions are drawn as to the credibility of the reports and the nature of the CW capability that each country possesses. A full chapter looks at the use of chemical weapons in the Iran-Iraq War, especially timely in light of Iraq's CW capability in the 1991 Persian Gulf war. Other sections provide background information on chemical weapons manufacturing, amounts needed for militarily significant capability, and the possibility of delivering CW agents by long-range delivery systems. The editors analysis of past and current efforts to stem CW proliferation, including political measures, export controls, and arms control negotiations, leads them to conclude that the only effective means of arresting chemical weapons proliferation would be a verifiable multi-lateral convention banning the possession and manufacture of chemical weapons. The book...
