Wills, Esq., Tettenhall, Wolverhampton; Were balloted for and duly elected Members of the Society. VOL. 1. S XXIII. On the Meteorological Observations made in Eight Balloon Ascents, By James Glaisheb, Esq., F.R.S., Secretary. Amongst meteorologists, the desire to be among, and to get above, the clouds has been always great, as promising the only satisfactory means of determining the laws of the decrease of temperature with increase of elevation under different states of the sky, the laws of moisture, the circumstances of each formation of cloud, the heights at which they take place, their thickness and the space which separates them, as well as to determine the many currents which may simultaneously exist in the atmosphere. The only sure way of...

Reviews

This publication is definitely not effortless to get going on reading through but really exciting to read through. it was actually writtern really properly and beneficial. I am just very easily could get a delight of reading through a created publication.

-- **Gino Jerde Jr.**

A top quality ebook and the typeface used was interesting to read through. It is rally intriguing throgh reading through period. You wont feel monotony at anytime of the time (that's what catalogues are for relating to when you ask me).
