THE FIRES WERE BURNING IN THE DARKNESS OF AMERICA. . . An overly emotional NASA physicist, Tony Rydell, learns the frightening truth about Earth's normally protective but rapidly thinning ozone layer during an hallucinatory, near fatal flight over Antarctica. But only Clare Holton, an emotionally repressed government scientific liaison officer, is willing to give Tony a hearing. However, Jack Douglas, Clare's lover and a ruthless White House financial advisor, has the President's ear and is determined that nothing will undermine his plans to make the U. Another stunning novel by W. A. Harbinson, bestselling author of GENESIS and REVELATION. This item ships from...
