

## FLUENT - - fluid engineering simulation and analysis of examples (with CD)

Filesize: 4.66 MB

### ***Reviews***

*This book is definitely not effortless to start on looking at but really exciting to see. It really is simplistic but surprises from the 50 % from the pdf. I am just effortlessly can get a delight of looking at a published book.*

## FLUENT - - FLUID ENGINEERING SIMULATION AND ANALYSIS OF EXAMPLES (WITH CD)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 295 Publisher: Beijing University of Technology Press Pub. Date :2009-08. book introduces the basic concepts of computational fluid dynamics based on the works of the more typical of fluid in nine cases the main line. introduced the use of Fluent software platform for numerical simulation of fluid engineering and simulation method of calculation. The preparation of the book is still using the follow me style. a more detailed presentation from the modeling. simulation mesh to the entire process. with particular emphasis on the results of the analysis and discussion to lead the reader mesh and the correctness of the calculation results of deep thinking. This book can be used as engineering related undergraduate and graduate courses in computational fluid dynamics engineering undergraduate teaching reference books and reference materials designed for graduation. but also for the majority in the fluid mechanical engineering technology officers. Contents: Introduction Section I Chapter CFD computational fluid dynamics and computational fluid dynamics simulation of the development of Section II Section III Section IV classification of differential equations of the model equations used construction method a difference scheme V. Taylor series expansion method two. polynomial interpolation three. four undetermined coefficient method. integral method five. six characteristic line method. the control volume method commonly used in section VI of several model equations form a differential. two convection equation. diffusion equation III. difference scheme for convection-diffusion equation of compatibility in section VII. VIII. convergence and stability of the common fluid dynamics numerical solution of a partial differential equations. partial differential equations of the form and source of two parabolic equations of the numerical solution of three. two method of characteristics equations curved two-dimensional flow and heat...
